Compact

The wide range of Compact line includes video with Flat screen and audio internal stations with electronic call systems with the further possibility to choose amongst the alternatives reduced number of wires installations, 1+1 audio and 4+1 video.

Compact range is enriched by colour version enhancing coaxial cable as video signal transmission means.

Audio best quality is guaranteed by electronic call technology that reduces line interference.

Further help to reach an easy-to-use and convenient system for conventional video system is 1281E unit, that is power supply and timer in one item.

It can be perfectly used with any Farfisa analogue door stations and it is also available in different kind of video kit versions for one way systems.

The innovative technology of digital DUO SYSTEM uses the aesthetics of Compact range for the internal videointercom or intercom stations (b/w or colour ones) that, offering intercommunicating service, can reach great number of users. Choosing Compact you choose harmony of the shapes in modern design that makes the line extremely appreciated and can be suitable with elegance and discretion in many interior designs.

KM8100PLW

VIDEO INTERNAL STATIONS

KM8100CW

Videointercom flat
screen | colour
colour | white
w x h x d | 201 x 229 x 88

Videointercom with colour 4" flat screen for wall surface mounting, white colour. Supplied with three buttons for door-opening, display turn-on and additional services. It allows two distinguished chimes for call from landing and from door station.

KM8100W

Flat Videointercom
screen | b/w
colour | white
w x h x d | 201 x 229 x 88

Videointercom with 4" b/w Flat tube for wall surface mounting. It is equipped with three push buttons for electric lock release, auto switching and supplementary services. It allows two differentiated chime sounds for calls from the door station and from front door.

KM8111CW

Videointercom
screen | colour
colour | white
w x h x d | 201x 229 x 88

Colour videointercom with 4" screen for wall mounting. Supplied with three buttons for door-opening, display turn-on and additional services. It allows to get different chimes coming respectively from the landing or from door station.

KM8111W

Flat Videointercom
screen | b/w
colour | white
w x h x d | 201 x 229 x 88

Videointercom with 4" b/w Flat tube for wall surface mounting, for 4+1 video installations. It is equipped with three push buttons for electric lock release, auto switching and supplementary services. It allows two differentiated chime sounds for calls from the door station and from front door.

AUDIO INTERNAL STATIONS

KM810W

Intercom

colour | white

w x h x d | 86 x 65 x 211

For 4+1 intercom systems, it is supplied with a button with door-lock function and a second optional one by adding the ST701.

KM811W

Intercom for 1+1 systems

colour | white

w x h x d | 86 x 65 x 211

For 1+1 intercom systems, complete with a push button for door-lock function and a second optional one adding the ST701.

INTERNAL STATIONS FOR DIGITAL SYSTEMS **DUO** system color

KM8262CW

Videointercom

screen | colour

colour | white

w x h x d | 201x229x88

Videointercom for DUO SYSTEM COLOR with 4" colour tube for wall surface mounting. It is equipped with three push buttons for electric lock release, auto switching and intercommunicating service. The intercommunicating call is possible between other monitors or intercoms; call from landing is allowed.

INTERNAL STATIONS FOR DIGITAL SYSTEMS **DUO** system

KM8262W

Videointercom

screen | b/w

colour | white

w x h x d | 201x229x88

Compact videointercom for Duo System with 4" b/w Flat tube for wall surface mounting. It is equipped with three push buttons for electric lock release, auto switching and intercommunicating service. The intercommunicating call is possible between other monitors or intercoms; call from landing is allowed.

KM862W

Intercom

colour | white

w x h x d | 86x65x211

Compact intercom for Duo System, equipped with one push button for electric lock release and a second one for intercommunicating or other service.

INTERNAL STATIONS FOR FN4000 DIGITAL SYSTEMS **BASED ON FARNET**

KM8100WDG

Videointercom

screen | b/w

colour | white

w x h x d | 201 x 229 x 88

B/w videointercom with flat cable, 4" screen, white colour. With integrated decode module, audio-video secrecy, electronic microphone. Supplied with three buttons for door opener, camera recall and supplementary service. It allows differentiated chime sounds for calls from door station and from front door.

KM810WDG

Intercom

colour | white

w x h x d | 86x65x211

Intercom for FN4000 digital system with integrated decoding, supplied with a button for electric lock release and one for intercommunicating service or other function.

KITS WITH DIGITAL TECHNOLOGY DUO SYSTEM

COMPACT-MATRIX SERIES

KM8262MXCW

one-way/white videointercom with LCD screen

KM8262MXW

one-way/white videointercom

KITS WITH COAX CABLE TECHNOLOGY WITH ELECTRONIC CALL

COMPACT-PROFILO SERIES

KM8100PLCW

one-way/LCD white videointercom

KM8100PLW

one-way / white videointercom

COMPACT-MATRIX SERIES

KM8100MXW

one-way/white videointercom

COMPACT-MODY SERIES

KM8100MDW

One-way/white videointercom

KM8100MDW/2

Two-way/white videointercom

KITS WITH 4+1 TECHNOLOGY WITHOUT COAX CABLE WITH ELECTRONIC CALL

COMPACT-PROFILO SERIES

KM8111PLCW

one-way/white videointercom with LCD screen

COMPACT-MODY SERIES

KM8111MDW

One-way/white videointercom

KM8111MDW/2

Two-way/white videointercom

ACCESSORIES

WB8600

Wall bracket with terminal boards for electrical connections and wall mounting of KM8100W.

WB8111

Wall bracket with terminal boards for electrical connections and wall mounting of the monitor KM8111W and KM8111CW

WB8262C

Wall bracket with terminal boards for electrical connection and wall mounting of KM8262CW videointercom.

WB8262

Wall bracket with terminal boards for electrical connection and wall mounting of KM8262W videointercom.

WB8100DG

Wall bracket with terminal boards for electrical connections and wall mounting of KM8100WDG videointercom.

ST701

Additional button for KM810W and KM811W intercom.

ST703

Three level switch for KM810W and KM811W intercoms to adjust chime volume.

ST704

Additional loudspeaker.

SM50

Private conversation module for 1+1 systems with electronic call. When installed inside the K811W intercom, it allows only the called user to be put in communication with the external door station.

SM50E

Private conversation module for systems with electronic call. When installed inside the KM810W intercom, it allows only the called user to be put in communication with the external door station.

PRS210ED

15VA transformer for 1+1 electronic call audio systems. 127-230V. 13V ac. 4 A modules in DIN bar.

1281E

Power supply with timer integrated 230-127Vac/48VA outputs protected against overloading and short circuits. Provided with note generator for videointercom systems with electronic call for Compact line. Output voltages: 13Vac and 21Vdc. Certification: VDE. 8A modules on DIN bar.

1281

Stabilised power supply 230-127V ac, 48VA, outputs protected against overloading and short circuits, able to supply power to 1 camera unit and 2 FLAT or LCD video intercoms connected in parallel, or 1 camera unit and 1 video intercom (not FLAT). Output voltages: 13V ac and 21V dc. Certification: VDE. 8 A modules on DIN bar.

1282E

Audio-Video timer. Allows operation in timer mode of a video system with electronic call, automatic deletion at the end of the conversation and the switching on of one video intercom at a time. Mountable on 6 A DIN module. Art. 1281 and 1282E can be used instead of 1281E in case of intercommunicating service or automatic switch-off of conversation are required.

1181E

Timed power supply - 127-230V ac. 48VA outputs protected against overloading and short circuits, able to supply timed power to 1 camera unit and 2 Compact video intercoms connected in parallel. Output voltages: 13V ac and 21V dc. Certification: VDE. 8 A modules on DIN bar.

DV2D

2-output floor distributor. Power supply: 21Vdc.

DV4D

4-output floor distributor. Power supply: 21Vdc.

241D

2-diode module to be inserted in button modules MD21, MD22, MD23, MD222, MD224, MD226, MD228 for 4+1 video or 1+1 audio systems.

241DMA

4-diode module to be inserted in button modules PL21, PL22, PL23, PL24 and MA22, MA24 for 4+1 video or 1+1 audio systems.
